Hitting the October sweet spot

Considering what Port Phillip dished up on the immediate days before and after Race two we sure hit a Port Phillip weather sweet spot.

Grumbles from the deep

Having said this I know grumbles from the likes of Avian and Cyan, both going exceptionally well till the last rounding to the RMYS E mark, where they came to a full stop, may not fully agree here. The corrected times show they were in for a decent corrected time placing till they came to a full stop.

What the race two fleet saw

Time for grumbles

ALWAYS ROOM FOR ONE MORE
